

**AMENDMENTS TO THE CLAIMS**

**This listing of claims will replace all prior versions and listings of claims in the application:**

**LISTING OF CLAIMS:**

1. (currently amended): A method of operating a cellular telecommunication system wherein one base station ~~(10)~~ communicates with at least one mobile station ~~(11)~~, and wherein the a transmission from the base station to the mobile station includes at least two services (S1, S2), and wherein, said method comprising:

increasing and decreasing the power level of the transmission ~~is increased and decreased,~~

characterized in that based on a transmission power control loop; and

limiting the power levels of the services (S1, S2) ~~are limited~~ by individual minimum and maximum values (MIN1, MIN2, MAX1, MAX2).

2. (currently amended): The method of claim 1, ~~characterized in that~~ wherein the minimum values (MIN1, MIN2) or the maximum values (MAX1, MAX2) of the services (S1, S2) are identical.

3. (currently amended): The method of claim 1, ~~characterized in that~~ wherein the minimum values (MIN1, MIN2) and the maximum values (MAX1, MAX2) of the services (S1, S2) are ~~adjustable~~ adjusted independently and individually.

4. (currently amended): The method of claim 1, ~~characterized in that~~ wherein the power levels of the services (S1, S2) are provided with an offset value (0).

B1  
5. (currently amended): A cellular telecommunication system wherein one base station ~~(10)~~ communicates with at least one mobile station ~~(11)~~, wherein ~~the~~ a transmission from the base station to the mobile station includes at least two services (S1, S2), ~~and~~ wherein the power level of the transmission is increased and decreased based on a transmission power control loop, ~~characterized in that~~ and wherein the power levels of the services (S1, S2) are limited by individual minimum and maximum values (MIN1, MIN2, MAX1, MAX2).
